

DI Trails Committee

CIT Trail Report, June 2015:

Dates for June 2015 were 4th, 11th, 18th & 25th (all Thursdays)

Margie & I walked from the Swan Road end of the CIT to the corner of Denman & Northwest for three of the four observations.

On the 4th of June outing of the DI Trails Committee. It was a work party to clear brush & debris from the sides of the path as far as the mailboxes across from 6791 Denman Road. On the team were Allan, Graeme, Anne, Margie, Michael G., Tim & Ralph. Several truck loads of debris were hauled to the DIVFD site. We also fixed the "snake fence" just west of Swan Road. A good effort by all.

June 11th Margie & Ralph started at 09:30 at the Swan Road end and walked west to the end at Northwest Road. Small amounts of garbage were picked up. Noted that the overhead branches need cutting back just east of the DIVFD Hall. Also noted was the thistles growing along & on the trail west of the Fire Hall. A yellow cover plastic is need on the guywire just east of Lacon Road (it presents a hazard to tall people & horse riders.

June 18th walk focussed on the thistles west of the DIVFD Fire Hall. We started at 09:30. Most of the thistles were removed by hand and hoe. Small amount of litter removed from the roadway edge. Trail is in good shape.

Margie & I have one more *walk* to do on the 25th of June to complete the monthly routine.

Margie & Ralph
